SECTION III/PRICE LIST & LABOR CATEGORIES

cBEYONData recognizes that successful performance depends on having the right skills and experience. These skills and experience, in turn, are acquired through the proper mix of education and professional experience. More and more, we find that the skills needed to meet task order performance and address today's problems and tomorrow's challenges, require individuals with varying levels of education, specialized knowledge and experience. The correct combination of these three elements is often unique and dependent on the particular requirements associated with the work being performed. Therefore, cBEYONData's Consolidated Schedule utilizes equivalencies between experience and education that allow us to take the full measure of an individual's capabilities.

The rates shown in this section include the Industrial Funding Fee (IFF) of 0.75%. The labor category descriptions defined in this section provide the general guidelines for each labor category; however reasonable consideration may be used for determining the optimal combination of experience and education for each task.
