

# SEEING BEYOND YOUR DATA

## Capabilities Brief

# About Us

For the past 10 years cBEYONData has provided value to government agencies through Business Automation solutions for the CFO's Office and end-user missions. We ensure our customers' analytical and reporting requirements are met through solutions such as financial reporting, external reporting, dashboards, analytics, visualizations, machine automation, and geo-integrations. We are committed to customer success, as demonstrated by our strong customer retention rates, outstanding CPARS ratings, 95% employee retention rate and many industry awards.

2019 Washington Technology Best Places to Work Awardee

Recognized as one of the Top IT Service Provider, Big Data Compliance, & Big Data Operations Companies in 2019 by Clutch Magazine

Clutch 1000 Global Leaders in 2019

ISO 9001:2015 Certified : 2019 Recertification

# Top Key Differentiators

- Our staff is comprised of technical, functional and management experts with a focus on Federal government expertise
- 90% of cBEYONData personnel hold Secret or Top-Secret clearances
- 95% of our work is performed by our employees, not independent contractors
- We are 100% focused on data ~ management, security, advanced analytics, machine learning, data update automation
- We partner with leading edge analytics companies (UiPath, Tableau, Information Builders) as well as industry giants (SAP, ESRI, AWS, Microsoft) ~ We continually analyze new and emerging analytical technologies
- CFO Control Tower Toolkit.** The CFO Control Tower consists of pre-built components, content, and collateral that consolidates disparate financial systems to produce reports, alerts, business process automations, and analytics delivered through a single integrated portal that provides CFO's timely visibility of their financial data for improved decisions.
- Very low personnel turnover – 5% over the past six years
- cBEYONData invests in our own development cloud to ensure our team is trained on the most current technologies and product releases prior to introducing them to our customers
- Significant past performance in successfully migrating our customer's data and applications to FedRAMP clouds.

# Professional Services Excellence – cBEYONData Partners

*COTS software design, implementation, and sustainment*

# Professional Services Excellence – cBEYONData Partners
